

Children's Internet Protection Act (CIPA) Compliance and Assurance Statement

Spring Hill School District certifies that inappropriate sites on the Internet are blocked through single layer Internet filtering through the Arkansas Department of Information Systems' m86 Internet filter.

Spring Hill School District certifies that an Internet safety policy (Acceptable Use Policy found in school handbooks and the Districts Website) is in place and students are educated in cyber-bullying awareness and response and interacting with other individuals on social networking sites.

Spring Hill School District also certifies that a system is in place to monitor the online activities of minors on the district network. In addition to monitoring by teachers and lab managers, programs such as Synchroneyes are used in the jr high and high school labs to allow teachers to monitor the activities of students.
